

FIG. 1 is a block diagram of a system architecture. The system includes a cell phone (101) connected to a cellular network (108). The cellular network (108) is connected to a gateway (GW) (110), which is connected to a PSTN (109). The PSTN (109) is connected to a web server (103). The web server (103) is connected to a HDN (107). The HDN (107) is connected to an A/C (104) and an AV (105). A Security (106) block is also connected to the HDN (107). A thick arrow (102) points from the cell phone (101) to the web server (103).

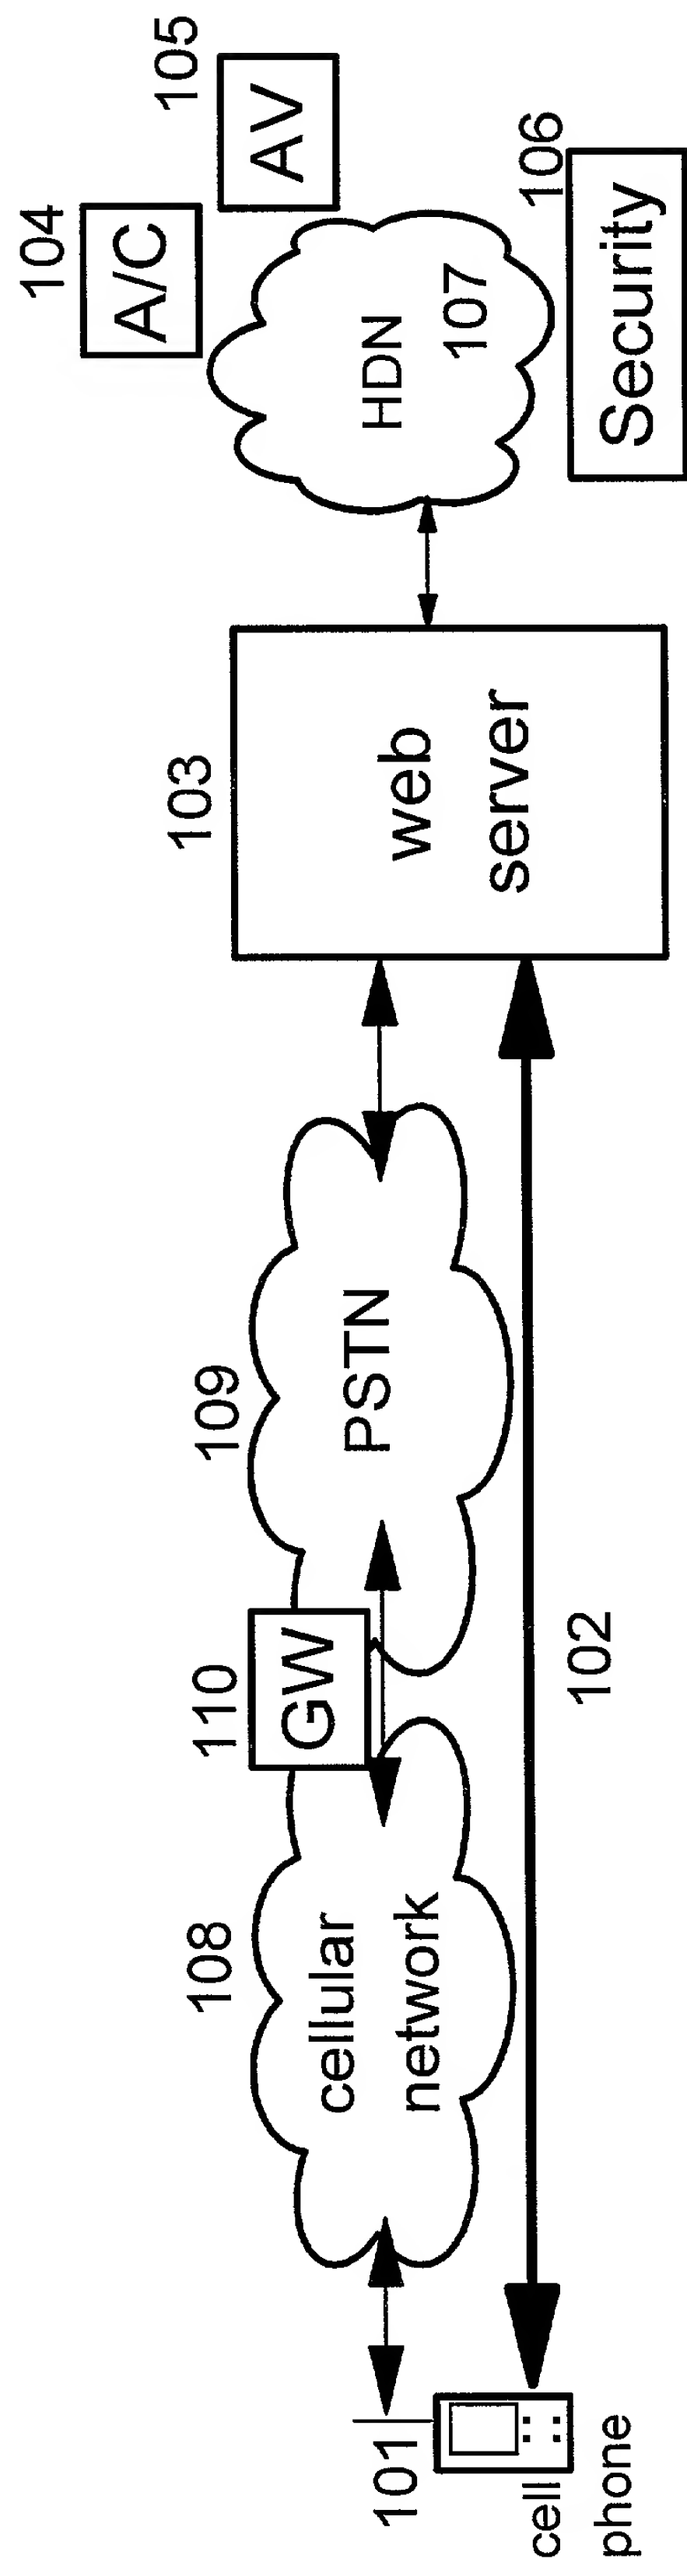

FIG. 1

FIG. 2 is a block diagram of a system architecture for a remote dial-up server and a client device.

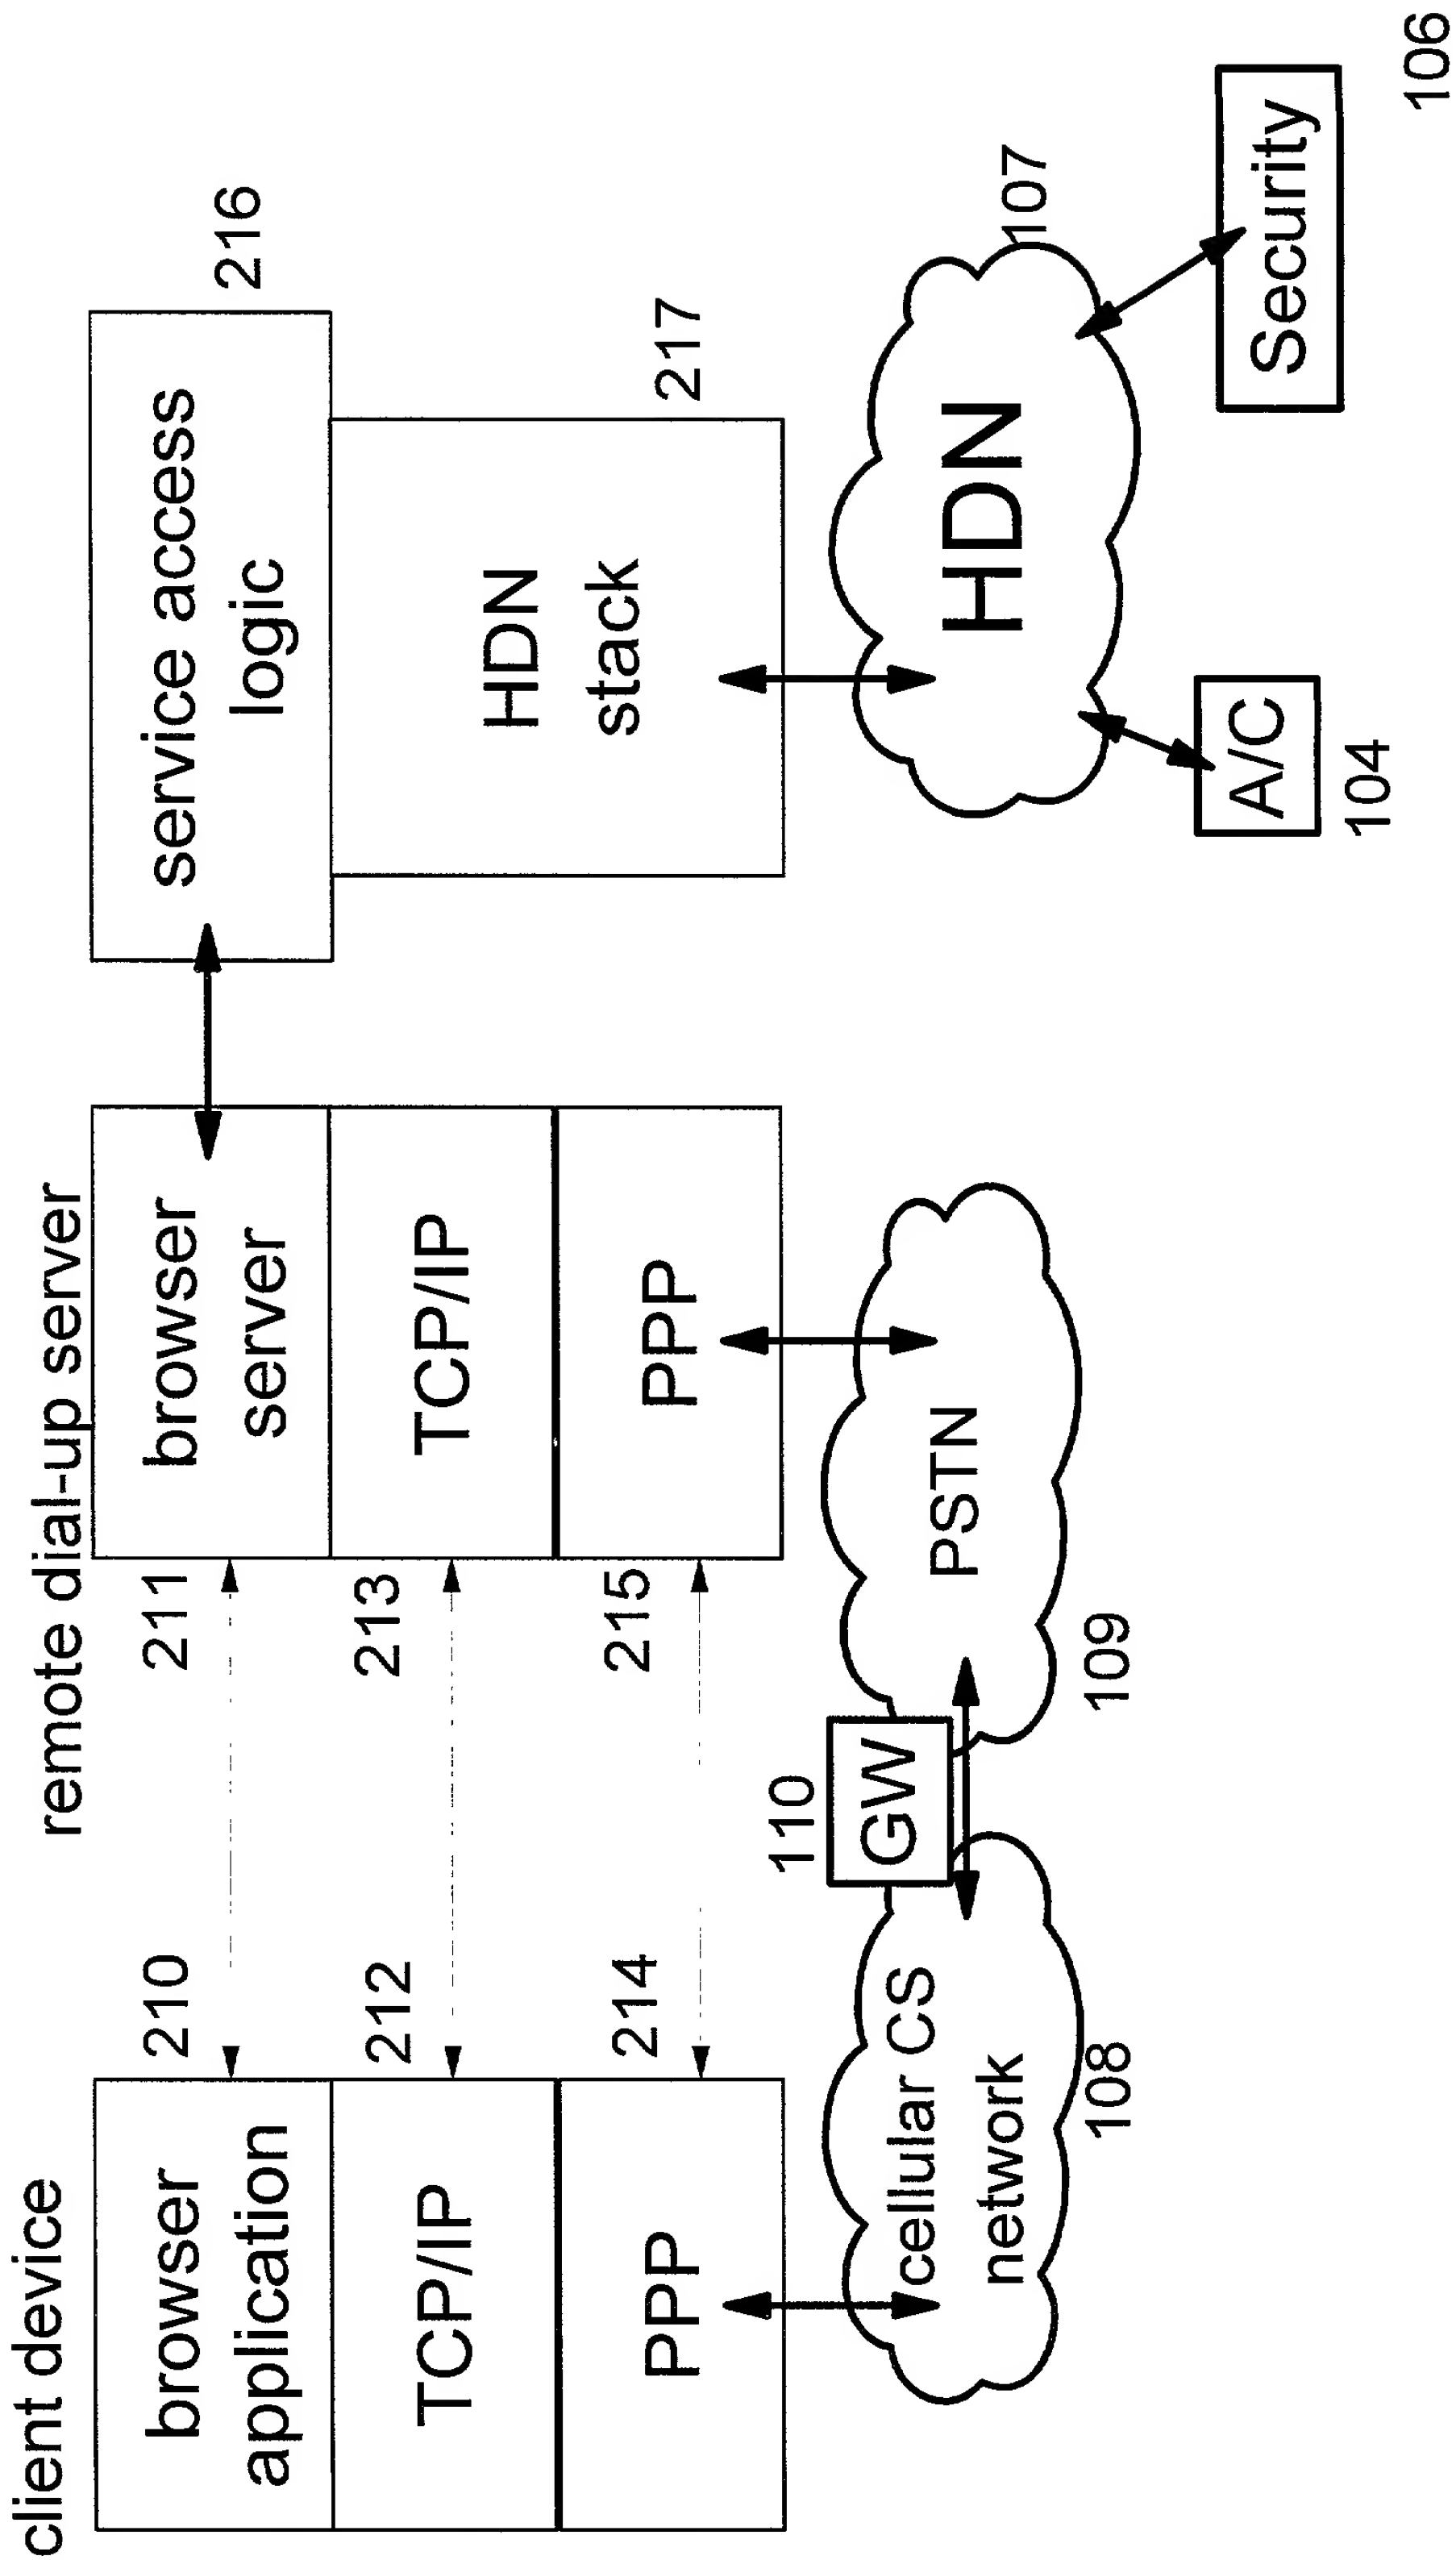

FIG. 2

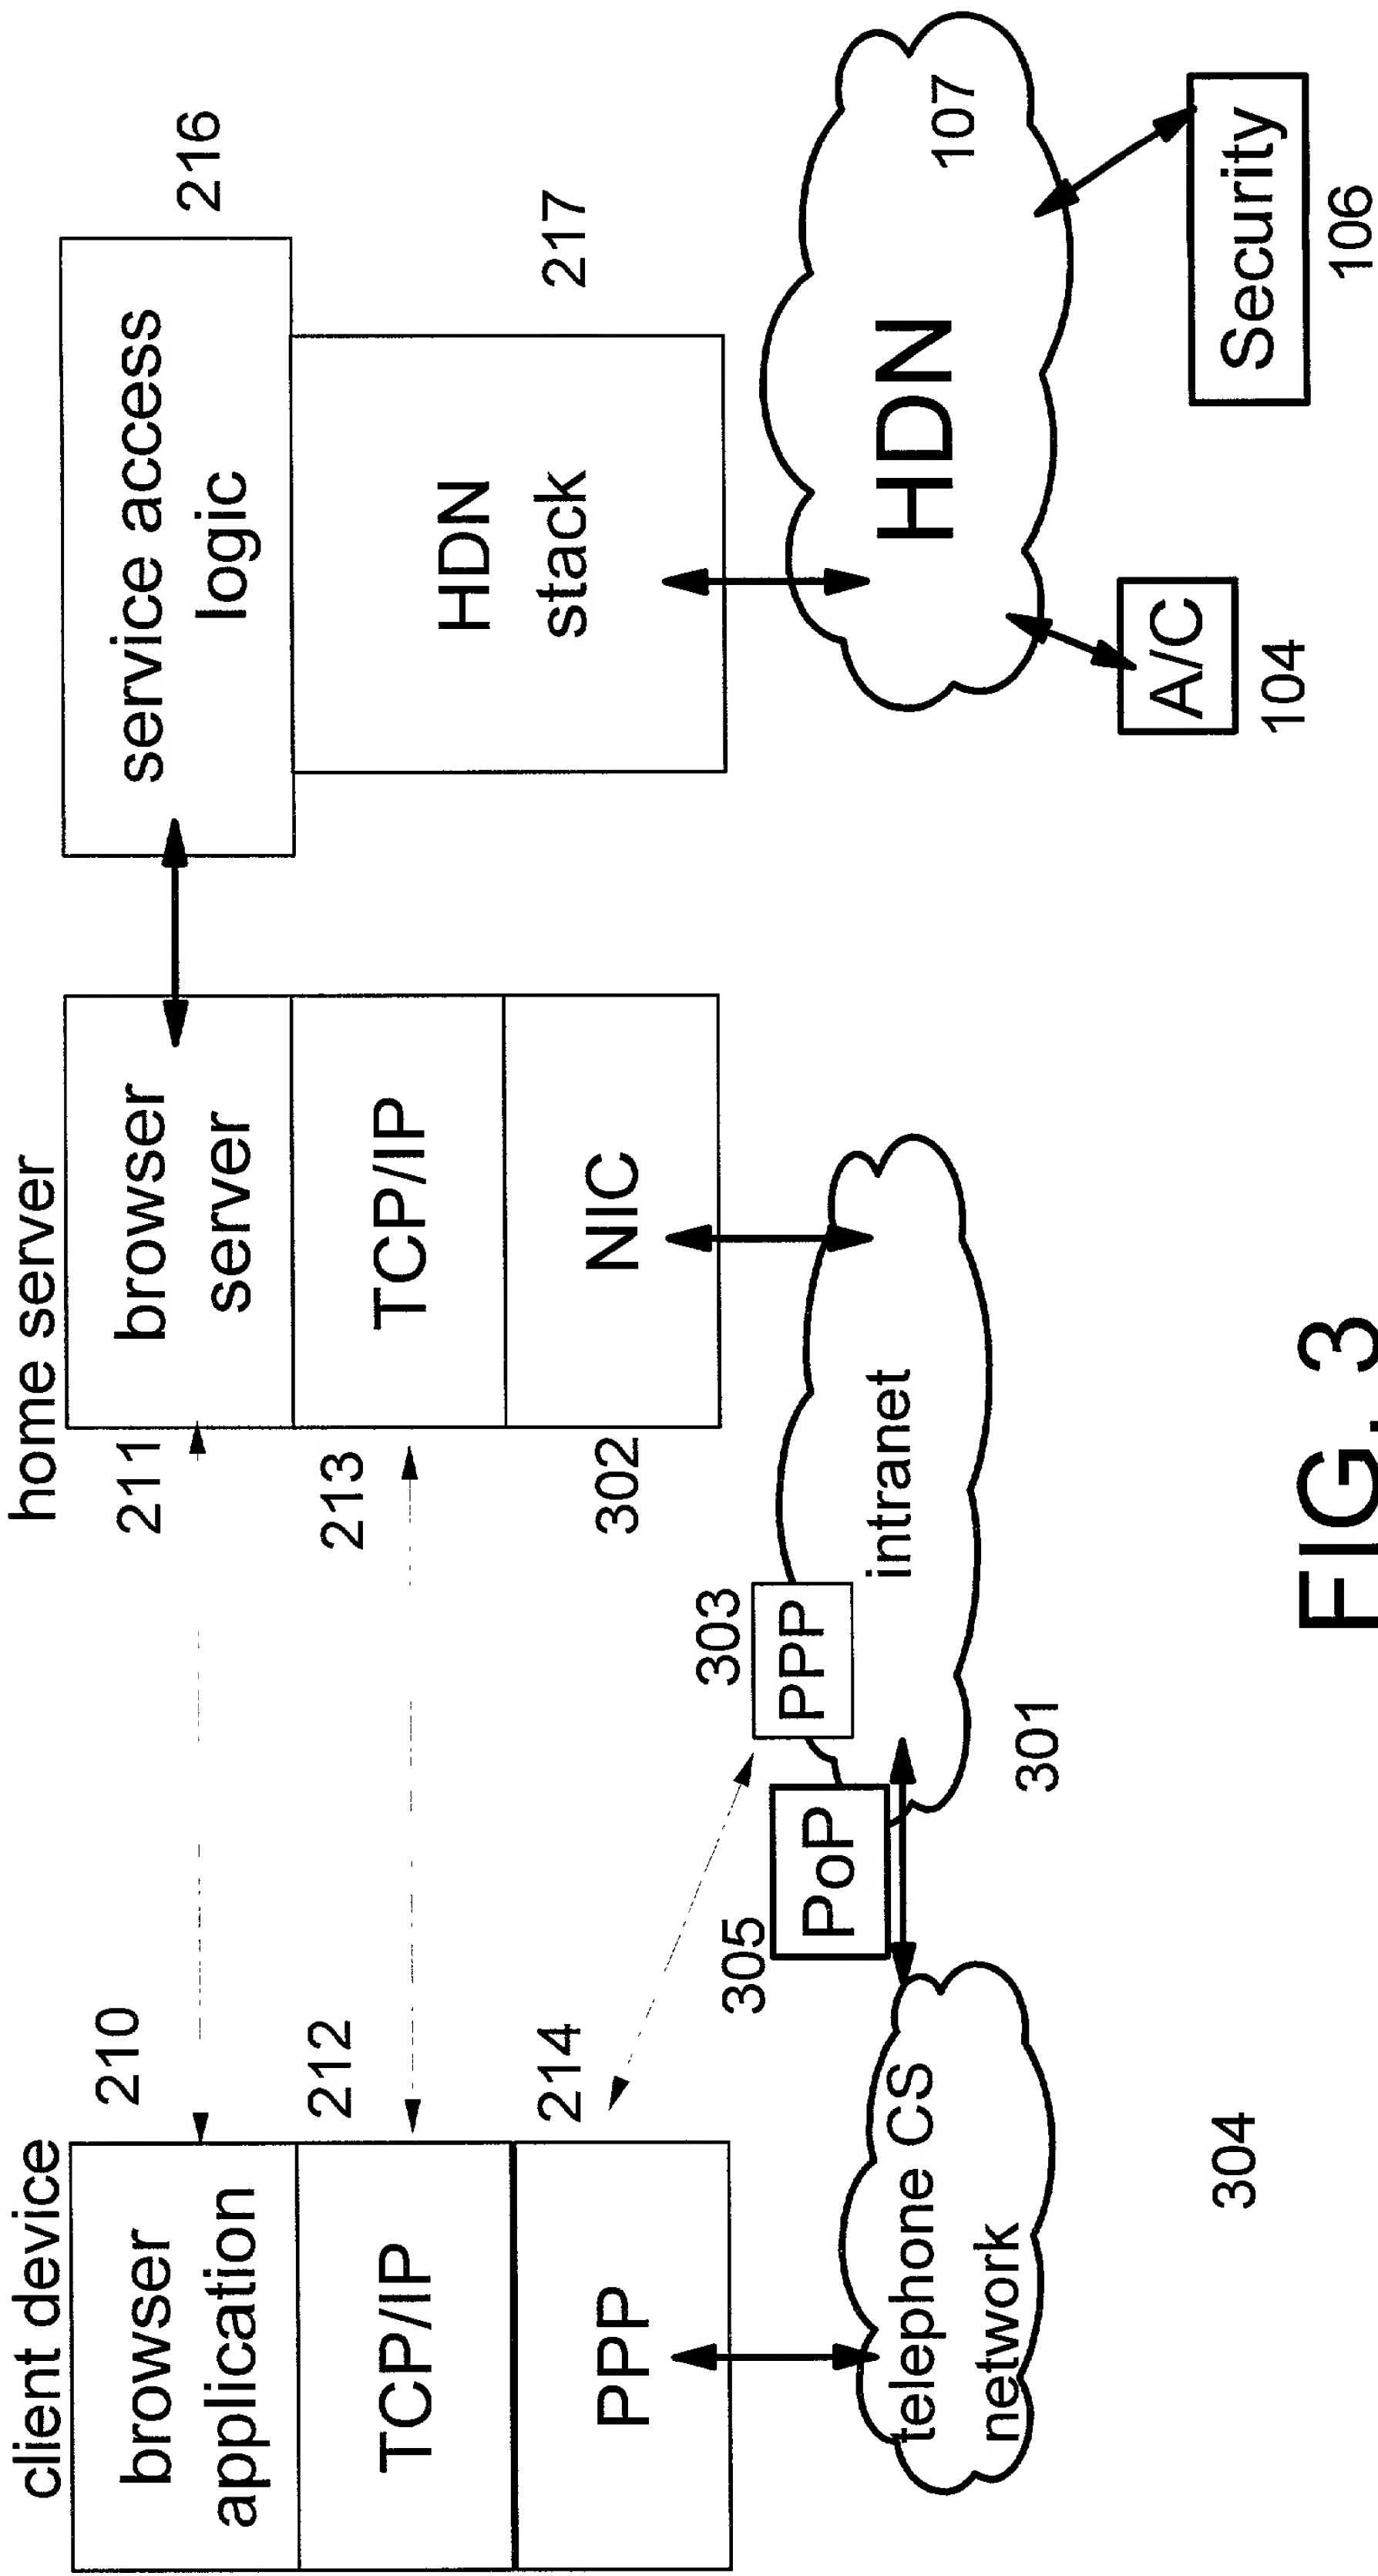

FIG. 3

FIG. 4 is a block diagram of a system architecture.
